New Patient Action Plan

1. Your first appointment today will consist of **posture images, examination, insight scan, and x-rays** as the doctor finds necessary. X-rays will then be marked and reviewed by the doctor to review results with you at your second appointment (typically 24 hours turnaround).
2. Your second appointment the doctor will review what he found on your x-rays, you will receive your **first adjustment, and if there are any additional tests or x-rays** needed to determine the best course of care, the doctor will order.
3. Your third appointment is the most important visit you will have; the doctor will go through all of your x-rays, findings, and offer **recommendations on course of care**. There is NO cost for this visit.

If you have insurance, we will verify your coverage for chiropractic care. If your insurance does not cover chiropractic care, we offer ChiroHealth USA**; a medical discount program that saves you 35% off your chiropractic care plus capped family fees for first appointments.

The cost of annual membership for ChiroHealth USA is only \$49.00 to cover you and your entire family for one year.

OFFICE POLICIES

Welcome to Liberation Chiropractic & Wellness PC!

As a potential new patient, we feel it is important that you understand our office policies regarding, how patients of this practice are cared for, and the various methods we offer to facilitate payment for that care. Please read each policy carefully so there is no misunderstanding as to what you can expect as a patient of this practice, and what we expect in return. Once you have read "Our Office Policies", if you have any questions or any of these policies are unclear to you, and you would like further explanation before submitting your *Application for Care*, please let our front desk know and a member of our staff will be happy to discuss them with you further. We believe it is in everyone's best interests to provide potential new patients as much information as possible about how the doctors at this office practice chiropractic so that an informed decision can be made as to whether they wish to become a patient.

Over time, individuals who are accepted, as patients at this office, gain a greater understanding as to the purpose of chiropractic. Since the majority of patient care occurs in an open bay area, patients have a unique opportunity to observe firsthand the positive results that are achieved and the benefits derived from being under chiropractic care. This knowledge and awareness reaps a positive environment that promotes healing and encourages families to maintain good health. We want your experience with us to be an exceptional one, so help us to help you and together we can make affirmative changes in your life and the lives of those you care about.

□ **PATIENT PRIVACY** - Since the majority of patient care takes place in an open bay area it is important to understand that any conversations you have with the doctor can be overheard by other patients. In order to maintain patient privacy it is the policy of this practice to refrain from discussing any confidential matters with patients during treating hours while patients are being adjusted. If you have a confidential matter you wish to discuss please let us know and we will schedule time for you to speak to the doctor in a private consultation room. These consultations must be scheduled in advance.

□ **YOUR CARE** - When a patient seeks chiropractic health care and we agree to provide that care, it is essential for the patient and the doctor to be working toward the same objective. Chiropractic care at Liberation Chiropractic & Wellness PC is rendered primarily to minimize and reduce subluxations, which are a major interference to the expression of the body's innate wisdom. The doctors use 1) [Dr. Bucknell Corrective Technique](#) OR 2) a myriad of techniques to accomplish this goal, including but not limited to CLEAR, Pettibon, Arthrostim, Diversified, SOT, ART, and CBP. It is important that you understand both the objective and the method(s) so there is no confusion or disappointment. Tremendous progress has been made in the rehabilitating and correction of spinal problems. Where in the past, chronic spinal structural problems could not be reversed or corrected, today they can. Your doctor will outline a course of treatment that will take you beyond simple pain relief, through [two](#) distinct phases of care to make a structural correction to your spine that will enable your central nervous system to function optimally, thereby improving you overall health.

□ **FIRST THINGS FIRST**- Prior to receiving chiropractic care at this office, a health history and examination will be completed. Imaging studies as well as any other necessary diagnostics may also be ordered, to confirm the true nature of your condition and exact location of subluxations. The results of these procedures will aid in assessing your presenting problem, your overall health and, in particular, the condition of your spine. They will also assist the doctor in determining the type and amount of care you will need. All relevant findings will be reported to you along with care plan recommendations so that you can make the best possible decision regarding your health care needs. Our gold standard for care is to ensure the reduction of subluxation while teaching patients what they need to do in addition to being adjusted to maintain their health for a lifetime.

□ **PATIENT'S REPORT OF FINDINGS** - To enhance your understanding of the chiropractic approach that will be used to manage your health, immediately following your first adjustment, you will be scheduled for a 'Doctors Report of Findings'. The information you receive at this appointment will be both informative and clinically relevant to your case, therefore attendance is required for individuals who wish to become new patients of this practice. Because the results of your x-rays and all examinations as well as the doctors' recommendations for care, will be discussed at that time, we strongly urge new patients to invite their spouse or significant other to attend. We know from experience that when a patient's family understands the goals and objectives of chiropractic care and how restoring and maintaining good health can affect their lives as well, they become infinitely supportive and helpful in making important decisions concerning treatment options.

I hereby acknowledge receiving a copy of the practices 'Office Policies' a two page document, the first page of which I have read and retained. This second page is recognized by me as the signature page and will be retained by the practice as evidence of my receiving and understanding this 'Notice'. I further acknowledge that any concerns regarding these 'Policies 'as well as all my questions have been answered by a qualified member of the staff to my complete satisfaction.

FINANCIAL AGREEMENT OF UNDERSTANDING

I would like to become a patient of Liberation Chiropractic & Wellness and participate in the Billing Simplification program offered by this practice to facilitate effortless payment for a certain portion of the cost of services and procedures I have consented to receive over the course of my treatment.

INSURANCE PATIENTS

I have been made aware that most insurance plans impose either a visit or dollar limit and/or restrict chiropractic management approaches by covering only a limited number of treatment types and/or techniques, some of which may be used to treat my condition(s) throughout the clinical course of my care. Further, it has been made clear to me that these limitations are not a consideration in formulating care plans, and that the doctor's recommendations are based solely on achieving my personal goals. With this understood and the realization that full insurance reimbursement is unlikely, I agree to follow the doctor's recommendations for care irrespective of my health plan coverage.

In as much as the doctor has discussed the terms of this 'Agreement of Understanding' and I have conveyed my complete understanding of all payment options available to me, I prefer the office to bill my insurance company and await direct provider reimbursement for all covered services. For this consideration, I will provide any and all assistance, including assigning my benefits, in order to ensure proper reimbursement is made directly to Dr. Michael Bucknell as expeditiously as possible. I further understand that charges for all services have been reviewed with me in advance and those that my insurance does not cover are my responsibility. I further waive any requirement moving forward to sign a "Non-Covered Services Statement" every visit.

I understand that my care plan has been designed to stabilize and correct the spine in order to reduce pressure from the nervous system. This is done per the exam and x-ray findings and our clinical experience with the goal of improving overall structure and function. In addition, I understand that my schedule for care may be increased or decreased by the doctor at any time in order to accomplish this goal. It is further understood that if there are any additional costs associated with a change in my care plan, they will be discussed with me prior to my receiving any additional services.

It has been explained to me and I acknowledge that the care plan I wish to participate in imposes two 'situational restrictions' which could cause my care to be suspended or terminated should either one occur. Both have been explained to me and I understand and agree to immediately notify this practice should the following circumstances arise:

In the event I sustain a new injury or have an accident, I realize that I may experience new symptoms and/or a new problem may arise which could impede recovery from my current condition. In such an instance, I recognize that it is important to evaluate any new symptoms to determine how they may affect my current and future health status and assess whether there is a need to modify my current care plan. Once my new symptoms and condition are diagnosed and/or resolved, my care plan will resume.

In the event I decide to interrupt any payment due this office, either because I wish to discontinue my care or for any other reason, I may not resume care without an additional evaluation from my doctor. If I am making monthly payments at that time, it is possible that I will owe money since more services are being rendered in the beginning of my care than the monthly fee covers.
